# ISBM COLLEGE OF ENGINEERING, PUNE

S. No. 44/1, 44/1/2, Nande Village Tal: Mulshi, Pune – 412 115

## Best Practices

### **Best Practice I**

**Title of the Practice: NSS Activity.**

#### **Objective:**

The students are encouraged to get involved in social activities in the earlier stage of their career and also participate in social activities. It also boost student's confidence and skill to come together and work in team.

#### **Context:**

The students are encouraged to do team activity. This improves their interest in the social activity and ethics. The managerial skill of the students will also increase, how to handle problems, what is need of society, importance of education etc.

#### **Practice:**

ISBM College of Engineering is actively participate in the events organized at university level for NSS related activity as well as conduct various activity like NSS Camp, Blood Donation Camp, Nirbhay Kanya Abhiyan, swaccha Bharat Abhiyaan, Road Safety Program etc. at institute level.

**Best Practice II**

**Title:** Institute Industry Interaction.

**Objective:**

1. To make students aware about need of industry and Industrial culture.
2. To minimize gap between academics and industry.
3. To enhance technical skill and employability.
4. To Motivate and Encourage students for creative mind-set.
5. To create awareness about current trends of technology in industry.

**Context:**

ISBM College of Engineering organizes various activities like Expert session, Guest lecture, certification Courses, seminar, webinar etc. along with industries. Experts from industries are invited to guide students through various activities organized to improve student's skills and employability, to aware students about current technology etc. It also aims to ignite creative thinking and nurture technical instincts in students. ISBM college of Engineering organizes various activities under MOU made with different industries.

**ISBM COLLEGE OF  
ENGINEERING, PUNE**

S. No. 44/1, 44/1/2, Nande Village Tal: Mulshi, Pune – 412 115

**Evidences:**

As per circular provided by DTE Cell, before the commencement of first year engineering classes Orientation Program organized at institute auditorium. Eminent personalities from education field, Industries, Government sector are invited to enlighten and guide students for their upcoming journey in Engineering. As per the syllabus provided by SPPU for various courses industrial visits conducted. For final year students under MOU industry sponsored projects provided. For third year student's internship at various industries are made available.

**Problem Encountered:**

For organizing an event or program, contacting and getting an appointment with the eminent personalities, Industrialist is a big problem. Scheduling and Managing whole program is difficult task, Respective faculty coordinator along with team of students organize, schedule and manage event and take efforts to complete event successfully under the guidance of higher authority and management.
