“Street play on plastic free India”

In the last decade, plastic has affected the health and life of human beings very badly. Some incidents have attracted the attention of the whole world and put a question mark about the use of plastic in daily life. Plastic, the wonder material that we use for everything and which pollutes our environment, is perhaps the most harmful of trash dumped by mariners and sea-goers in sea because it does not readily break down in nature. In-fact, the plastic that goes over the side today may still be around in hundreds of years to foul up the fishing gear, boat propellers, and beaches of future generations.

Students of ISB&M School of technology performed street play on Plastic free India and motivate people to avoid plastic, use paper bags also focused on harms to human because of plastic use.

ANNUAL REPORT FOR ACADEMIC YEAR 2016-17

Principal: Dr. P. K. Srivastava

NSS Programme Officer: Prof. Sitaram Tongani

NSS has given us a platform to serve the society and bring happiness and smile on many faces. We created a hub to deliver services to the society by showcasing our talents. So it's not simply an association; it's a reason to achieve our objective and carry on the legacy for the coming years. We started our enrollment procedure for the current academic year in the month of September 2016 and 50 students joined as NSS volunteers for the Academic Year 2016-2017.

We started our journey on 10th of September with a Tree Plantation Drive held in ISB&M Campus to celebrate NSS Foundation Day. An Orientation Program was conducted to welcome our new NSS members on 8th September 2016. One of the essential parts for the success of any organization is the acquaintance of its members with the organization, its functions and objectives. Our respected Principal Dr. P. K. Srivastava motivated us with piece of advice and shared with us some of the experiences that he had when he joined and became a part of NSS.

REPORT

“Seminar on Woman’s Health”

Women's health refers to the health of women, which differs from that of men in many unique ways. Women's health is an example of population health, where health is defined by the World Health Organization as "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity". Often treated as simply women's reproductive health, many groups argue for a broader definition pertaining to the overall health of women, better expressed as "The health of women". These differences are further exacerbated in developing countries where women, whose health includes both their risks and experiences, are further disadvantaged.

On (3rd January 2014) ISB&M School of Technology organized “A Seminar on Woman’s Health” in Computer Department Seminar Hall at 11:00 AM. Dr. Vasant Aneraye given a seminar on woman’s health. All Ladies Teaching ,non teaching staff and girl studies were present for event.

“Report on Street Play to save girl child”

Girls are equally as important as boys in the society to maintain the social equilibrium. Few years ago, there was huge reduction in the number of women in comparison to the man. It was so because of the increasing crimes against women such as female feticide, dowry deaths, rape, poverty, illiteracy, gender discrimination and many more. To equalize the number of women in the society, it is very necessary to aware people greatly about the save girl child.

On occasion of ISB&M Foundation Day Students of ISB&M School of Technology presented “A Street plays on save girl Child”. All staff and students were present for program.
